

Dear Children, Parents, Grandparents, Ladies and Gentlemen

KTK, the children's day clinic in Liestal is expanding the medical software on the 6th March 2017.

The modification of our medical system is helping us to improve our daily service to all our patients in a more efficient and customer oriented way.

This change in the medical system will be a new challenge for the team and might cause some delays, at the beginning, until we were able to adjust ourselves to the new procedures.

Therefore we sincerely hope and looking forward to your understanding in case of any administrative delays.

Thanking you very much.

Sincerely,

Your KTK Team
